NEW QUESTION: 1 Which of the following is a benefit of information security governance?
A. Increasing the risk of decisions based on incomplete management information
B. Direct involvement of senior management in developing control processes
C. Reduction of the potential for civil or legal liability
D. Questioning trust in vendor relationships
Answer: C
Explanation: Explanation/Reference: Explanation: Information security governance decreases the risk of civil or legal liability. The remaining answers are incorrect. Option D appears to be correct, but senior management would provide oversight and approval as opposed to direct involvement in developing control processes.
