NEW QUESTION: 4A project has been mistakenly set up as a capital project, instead of a contract project. The project has already incurred expenditure. How can this be remedied?
A. Leave the project as capital and accrue for revenue as is.
B. Delete all the expenditure items and change the project type.
C. A new project should be set up and costs transferred.
D. Move all the costs to a contract task within the capital project.
E. Change the project type to Contract
Answer: C**Explanation:**Note: *Project TypeThe project type determines how Oracle Projects processes costs (expenditure items) for a project. The type you choose provides many defaults and controls for project entry and processing. You must choose a type from one of the following project type classes:
/Use an Indirect project type to collect and track expenditure item costs and labor hours for overhead activities, such as administrative and overhead work, marketing, and bid & proposal preparation. You can also define indirect projects to track time off including sick leave, vacation, and holidays
/Use a Capital project type to collect and track costs and labor hours for asset development activities which you plan to capitalize as one or more assets.
/Use a Contract project type to collect and track costs, labor hours, revenue, and

billing for services performed for and reimbursed by a client
