NEW QUESTION: 1Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.You have an Azure subscription named Subscription1. Subscription1 contains a resource group named RG1.RG1 contains resources that were deployed by using templates.You need to view the date and time when the resources were created in RG1.Solution: From the RG1 blade, you click Automation script.Does this meet the goal?**A. YesB. No****Answer: B**Explanation:ExplanationFrom the RG1 blade, click Deployments. You see a history of deployment for the resource group.Reference: [https://docs.microsoft.com/en-us/azure/azure-resource-manager/templates/template-tutorial-create-first-template?Through activity logs, you can determine:](https://docs.microsoft.com/en-us/azure/azure-resource-manager/templates/template-tutorial-create-first-template?Through activity logs, you can determine:* what operations were taken on the resources in your subscription* who started the operation* when the operation occurred* the status of the operation* the values of other properties that might help you research the operation)* what operations were taken on the resources in your subscription* who started the operation* when the operation occurred* the status of the operation* the values of other properties that might help you research the operation1. On the Azure portal menu, select Monitor, or search for and select Monitor from any page2. Select Activity Log.3. You see a summary of recent operations. A default set of filters is applied to the operations. Notice the information on the summary includes who started the action and when it happened.Reference: <https://docs.microsoft.com/en-us/azure/azure-resource-manager/management/view-activity-logs>

NEW QUESTION: 2Which of the following items is considered as an objective of the three dimensional model within the framework described in COSO ERM?**A. Financial reportingB. Risk assessmentC. Control environmentD. Monitoring****Answer: A**Explanation:Explanation/Reference:Explanation:The COSO ERM (Enterprise Risk Management) frame work is a 3-dimensional model. The dimensions and their components include:Strategic Objectives - includes strategic, operations, reporting, and compliance.Risk Components - includes Internal Environment, Objectives settings, Event identification, Riskassessment, Risk response, Control activities, Information and communication, and monitoring.Organizational Levels - include subsidiary, business unit, division, and entity-level.The COSO ERM framework contains eight

risk components: Internal Environment, Objective Settings, Event Identification, Risk Assessment, Risk Response, Control Activities, Information and Communication, Monitoring. Section 404 of the Sarbanes-Oxley act specifies a three-dimensional model- COSO ERM, comprised of Internal control components, Internal control objectives, and organization entities. All the items listed are components except Financial reporting which is an internal control objective. Incorrect Answers: A, C, D: They are the Internal control components, not the Internal control objectives.

NEW QUESTION: 3 What monitoring option is used to generate file-related notifications based on a user-defined threshold?
A. Event Logs for File
B. Statistics for File
C. Background Tasks for File
D. Notification Logs for File
Answer: D
