NEW QUESTION: 1 Which statement is accurate about trusted facility management?
A. The TCB shall support separate operator and administrator functions for B2 systems and above.
B. The TCB shall support separate operator and administrator functions for C2 systems and above.
C. The role of a security administrator shall be identified and auditable in B2 systems and above.
D. The role of a security administrator shall be identified and auditable in C2 systems and above.
Answer: A
Explanation: Trusted Facility Management has two different requirements, one for B2 systems and another for B3 systems. The B2 requirements state: the TCB shall support separate operator and administrator functions. The B3 requirements are as follows: The functions performed in the role of a security administrator shall be identified. System administrative personnel shall only be able to perform security administrator functions after taking a distinct auditable action to assume the security administrator role on the system. Non-security functions that can be performed in the security administration role shall be limited strictly to those essential to performing the security role effectively.
