NEW QUESTION: 2An Australian group named Action Council on Smoking and Health (ACSH) has recently lobbied to make warnings on cigarette packets more graphic. The council proposed that striking visual photos of diseased organs should be put on at least 50% of outside packaging, in conjunction with health warnings outlining smoking hazards enumerated in a separate leaflet placed inside the cigarette packet. The ACSH claim that bland and ineffectual warnings like "Smoking is a health hazard" currently found on cigarette packets are not nearly sufficient. Substituting those inadequate admonitions with explicit photos will provide a powerful visual stimulus to help smokers relinquish their habit. The current cautions on cigarette packets have little or no impact on smokers who have grown immune to the warnings that focus on abstract tobacco related risks and illnesses from which smokers can easily disassociate themselves. The proposed new tactics would concentrate on the perspective of the individual smoker through a demonstration of what is occurring in his body each time he reaches for a cigarette, rather than a generic cautionary word of advise. The ACSH cited the results of recent studies conducted by psychologists at McKean University confirming that evidence related to one's own experience is more effective at influencing future behavior than a presentation of facts and figures. A further rationale for the addition of pictures to cigarette packages is the finding that smokers handle their packets 20-30 times a day, on average, thus, if graphic pictures on cigarette packets were introduced, smoker would have 20-30 chances to face the harsh reality of what damage they are doing to themselves each time they light up. Even more essential than the pictures on the outside label, ACSH strongly advocate including warnings and helpful information in a leaflet inserted into the packet of cigarettes. Even an analgesic, ACSH adds, found in every bathroom cabinet has all possible side effects enumerated in the insert. How much more imperative is it then when the substance in question is tobacco, a dried weed that contains highly noxious nicotine that society still accepts even though it kills one of every two of its users. Fundamentally, what is at stake here is

consumer rights. Smokers should know what substances they are inhaling, and what damage they are inflicting to their bodies, though surprisingly, even today, many do not. For this reason alone, the recommendation for more graphic pictures and warnings on cigarette packets, which many seem excessive, is being seriously considered. Which of the following, if true, would be most useful in supporting the claims made by the ACSH? **A.** There is firm evidence that information communicated in a textual format is more convincing than the same information conveyed in the form of visual depictions. **B.** There is firm evidence that information conveyed in the form of visual depictions is more convincing than the same information communicated in a textual format. **C.** A study of over 3000 individuals shows a statistically significant relationship between smoking and pulmonary damage. **D.** A study of over 3000 individuals shows a statistically significant relationship between levels of nicotine in cigarettes and pulmonary damage. **E.** A survey reveals that 79% of smokers look at their cigarette packages when taking out a cigarette. **Answer: B** Explanation: Explanation/Reference: Explanation: The best answer is B. If smokers were more convinced of the dangers of smoking by pictures than by text, they would be more likely to be influenced by the pictures that the ACSH is proposing.

NEW QUESTION: 3 Which must bear the primary responsibility for determining the level of protection needed for information systems resources? **A.** system auditors **B.** Senior Management **C.** IS security specialists **D.** Senior security analysts **Answer: B**

NEW QUESTION: 4 TSVファイルのセットを含むAzure BLOBコンテナがあります。 Azure BLOBコンテナは、 Azure Machine Learning サービスワークスペースのデータストアとして登録されます。 各TSVファイルは同じデータスキーマを使用します。 すべてのTSVファイルのデータをまとめて集約し、 Azure Machine Learning SDK for Pythonを使用して、集約されたデータをデータセットとして Azure Machine Learning ワークスペースに登録することを計画しています。 次のコードを実行します。 次の各ステートメントについて、ステートメントがtrueの場合は、[はい]を選択します。 それ以外の場合は、[いいえ]を選択します。 注：正しい選択はそれぞれ1ポイントの価値があります。 **Answer:** Explanation: Explanation Box 1: NoFileDataset references single or multiple files in datastores or from public URLs. The TSV files need to be parsed. Box 2: Yesto_path() gets a list of file paths for each file stream defined by the dataset. Box 3: Yes TabularDataset.to_pandas_dataframe loads all records from the dataset into a pandas DataFrame. TabularDataset represents data in a tabular format created by parsing the provided file or list of files. Note: TSV is a file extension for a tab-delimited file used with spreadsheet software. TSV stands for Tab Separated Values. TSV files are used for raw data and can be imported into and exported from spreadsheet software. TSV files are essentially text files, and the raw data can be viewed by text editors, though they are often used when moving raw data between spreadsheets.
