**NEW QUESTION: 1**You are creating a new portfolio scenario. You are attempting to save it for all users, but the selection is unavailable (grayed out). What is the cause?**A.** You have insufficient portfolio security privileges.**B.** You have Insufficient project security privileges.**C.** You have insufficient user security privileges.**D.** You have insufficient global security privileges.**Answer: D**  
Explanation:Explanation/Reference:Global profiles:Define a user's access to application-wide information and settings, such as the enterprise project structure (EPS), resources, roles, and cost accounts. Each user must be assigned a global profile.Incorrect answers:B: Project profiles Define a user's access to project-specific information. It is not required that each user be assigned a project profile; however, users cannot access projects unless they are assigned: a project profile, the global profile Admin Superuser, as a resource assignment when they are a project owner, or as a resource assignment when they have Team Member module access.
