Estruturit has prepared the hottest SAP C_THR88_2305 dumps exam questions which will be very helpful for aspirants in a case when they have less preparation in SAP Certified Application Associate exam.

NEW QUESTION: 1 A Cisco switch was configured using the "switchport trunk allowed vlan 1,80,99-250" command. Which two commands will remove VLAN 100 from the allowed VLAN list? (Choose two.)
A. switchport trunk allowed vlan 1-80,99,101-250
B. switchport trunk allowed vlan except vlan 100
C. switchport trunk allowed vlan remove vlan 100
Answer: A, C
Explanation/Reference: Explanation: A & B are right
1- after applying the question command: switchport trunk allowed vlan 1,80,99-250
Switch(config)#do show int trunkPort Mode Encapsulation Status Native vlanFa0/1 on 802.1q trunking 1Port Vlans allowed on trunk Fa0/1 1,80,99-250Port Vlans allowed and active in management domain Fa0/1 1Port Vlans in spanning tree forwarding state and not pruned Fa0/1 1now after applying "except 100":
Switch(config-if)#switchport trunk allowed vlan except 100
Switch(config- if)#do show int trunk Port Mode Encapsulation Status Native vlanFa0/1 on 802.1q trunking 1Port Vlans allowed on trunkFa0/1 1-99,101-1005Port Vlans allowed and active in management domain Fa0/1 1Port Vlans in spanning tree forwarding state and not pruned Fa0/1 none
You can see that except 100, allowed all vlans except 100, which is against what is required in the question.

NEW QUESTION: 2 An incorrectable I/O error has occurred on a RAID volume due to a disk failure that caused the data on the disk to become unavailable. For the RAID volume, the subdisk becomes unavailable and is considered stale and detached. What is the RAID level in the volume in this situation?
A. 0
B. 1
C. 2
D. 3
Answer: C
Explanation/Reference: Explanation:

NEW QUESTION: 3

お客様は、共有インフラストラクチャを確認する必要があり、Gen10サーバーはoneviewリポジトリで利用可能なSPPと連携しています。お客様の要件を満たすために使用できるHPEoneview機能はどれですか?
A. Server hardware report
B. Firemware compliance report
C. Health check
D. Firmware repository
Answer: B

NEW QUESTION: 4 You are developing a Fleet management module for Microsoft Dynamics 365 Finance and Operations. You create an FMVehicle table to store information that is specific to each vehicle in your fleet. Now, you need to create a form that allows users to view and edit all of the information related to a vehicle. Which form pattern should you use to accomplish this goal?
A. Workspace Operational
B. Dialog - Basic
C. Details Master
D. List Page
Answer: C
Explanation: Section: Manage the User Interface and Security for Developers (20-25%)
Explanation/Reference: Operational workspace: This is the standard pattern currently used for workspace development. Because of the set of components that are permitted in it, this pattern has superior performance over the deprecated "workspace" pattern. For this reason and to ensure visual and behavioral consistency with the other workspaces in the system, we recommend that you use this pattern.
List Page: A list page presents a set of data on a user interface that is optimized so that you can browse records, find

the right record, and then take an action upon that record. The list page lets the user search, filter, and sort the data. FactBoxes on the right side of the grid show related data for the active record. Actions that are relevant to the record are located on the ActionPane at the top of the page. The use of this pattern is now discouraged when there is a 1:1 correspondence between the List Page and Details page. Current guidance is to use this pattern only in other situations, such as when list pages have no backing details pages or have multiple backing details page (for example, when project quotations and sales quotations are shown together in the same List Page). Detail Master: A details form is the primary method for entering data. These forms let the user view, edit, and act upon data. All content on these form types is structured into FastTabs that can be expanded and collapsed, so that multiple FastTabs can be open at the same time. The FastTabs can contain fields or a grid, and each FastTab can have a local toolbar. This is the basic Detail Master pattern. This is the pattern that you should use by default.
