NEW QUESTION: 1 Which of the following documents is described in the statement below? "It is developed along with all processes of the risk management. It contains the results of the qualitative risk analysis, quantitative risk analysis, and risk response planning." **A.** Risk register **B.** Project charter **C.** Risk management plan **D.** is incorrect. The quality management plan is a component of the project management plan. It describes how the project team will implement the organization's quality policy. The quality management plan addresses quality control (QC), quality assurance (QA), and continuous process improvement for the project. Based on the requirement of the project, the quality management plan may be formal or informal, highly detailed or broadly framed. **Answer: B** is incorrect. Risk management plan includes roles and responsibilities, risk analysis definitions, timing for reviews, and risk threshold. The Plan Risk Responses process takes input from risk management plan and risk register to define the risk response. **E.** Quality management plan **F.** Explanation: Risk register is a document that contains the results of the qualitative risk analysis, quantitative risk analysis, and risk response planning. Risk register is developed along with all processes of the risk management from Plan Risk Management through Monitor and Control Risks. **Answer: A** Explanation: is incorrect. The project charter is the document that formally authorizes a project. The project charter provides the project manager with the authority to apply organizational resources to project activities.

NEW QUESTION: 2 Universal Containers built a Community to expose Leads and Opportunities to their resellers. They set up partner accounts with two roles and granted Super User access to the Sales Executives users who are created at the top level of the account role hierarchy. Universal Containers has the following requirements to expose dashboards to their partners: - Partners can NOT modify the dashboard - Partners only see data within their account - Partners see all the data on the partner account How should the Salesforce Admin fulfil these requirements? **A.** Select the Sales Executive as the running user for the dashboards. **B.** Select the Run as logged in user option for the dashboards. **C.** Select the Channel Manager as the running user for the dashboards. **D.** Select the owner of the partner account as the running user for the dashboards. **Answer: A**

NEW QUESTION: 3
