To be socially responsible and make good profits in the long run, every company try to make profits if Field-Service-Lightning-Consultant exam review materials are of good use, and priced fairly, they will choose them more than once, but when they find **Field-Service-Lightning-Consultant Demo Test** them are inferior or shoddy that cheat them out of their money, they may become angry and never another again.

In addition, if you become our regular customers, there are more preferential policies and membership discounts available, Our multiple Field-Service-Lightning-Consultant certifications products let customers prepare and assess in the best way possible.

NEW QUESTION: 1HOTSPOT**Answer:** Explanation:References:
<https://support.microsoft.com/en-us/help/3015072/azure-backup-now-supports-64-bit-editions-of-windows-client-operating>

NEW QUESTION: 2Your network contains an Active Directory domain named contoso.com. All domain controllers run Windows Server 2012. The domain contains an Edge Server named Server1. Server1 is configured as a DirectAccess server. Server1 has the following settings: Internal DNS name: Server1.contoso.com External DNS name: dal.contoso.com Internal IPv6 address: 2002:cla8:6a:3333::1 External IPv4 address: 65.55.37.62 Your company uses split-brain DNS for the contoso.com zone. You run the Remote Access Setup wizard as shown in the following exhibit. (Click the Exhibit button.) You need to ensure that client computers on the Internet can establish DirectAccess connections to Server1. Which additional name suffix entry should you add from the Remote Access Setup wizard?
A. A Name Suffix value of dal.contoso.com and a blank DNS Server Address value
B. A Name Suffix value of Server1.contoso.com and a DNS Server Address value of 65.55.37.62
C. A Name Suffix value of dal.contoso.com and a DNS Server Address value of 65.55.37.62
D. A Name Suffix value of Server1.contoso.com and a blank DNS Server Address value
Answer: D Explanation: Explanation/Reference: Explanation: * In a non-split-brain DNS environment, the Internet namespace is different from the intranet namespace. For example, the Contoso Corporation uses contoso.com on the Internet and corp.contoso.com on the intranet. Because all intranet resources use the corp.contoso.com DNS suffix, the NRPT rule for corp.contoso.com routes all DNS name queries for intranet resources to intranet DNS servers. DNS name queries for names with the contoso.com suffix do not match the corp.contoso.com intranet namespace rule in the NRPT and are sent to Internet DNS servers. * Split-brain DNS is a configuration method that

enables proper resolution of names (e.g., example.com) from both inside and outside of your local network. Note: For split-brain DNS deployments, you must list the FQDNs that are duplicated on the Internet and intranet and decide which resources the DirectAccess client should reach, the intranet version or the public (Internet) version. For each name that corresponds to a resource for which you want DirectAccess clients to reach the public version, you must add the corresponding FQDN as an exemption rule to the NRPT for your DirectAccess clients. Name suffixes that do not have corresponding DNS servers are treated as exemptions. References:

NEW QUESTION: 3 Ihr Unternehmen verfügt über ein Microsoft 365-Abonnement, das die in der folgenden Tabelle aufgeführten Domänen enthält. Das Unternehmen plant, dem Abonnement eine benutzerdefinierte Domain mit dem Namen fabrikam.com hinzuzufügen und anschließend die Registrierung von Geräten für Intune mithilfe der automatischen Erkennung für fabrikam.com zu ermöglichen. Sie müssen der Zone fabrikam.com einen DNS-Eintrag hinzufügen. Welchen Datensatztyp sollten Sie für den neuen Datensatz verwenden? **A. TXT B. SRVC. CNAMED. PTR**
Answer: A
Explanation: Topic 1, Contoso, Ltd Overview Contoso, Ltd. is a consulting company that has a main office in Montreal and two branch offices in Seattle and New York. The company has the employees and devices shown in the following table. Contoso recently purchased a Microsoft 365 ES subscription. Existing Environment Requirement The network contains an on-premises Active Directory forest named contoso.com. The forest contains the servers shown in the following table. All servers run Windows Server 2016. All desktops and laptops are Windows 10 Enterprise and are joined to the domain. The mobile devices of the users in the Montreal and Seattle offices run Android. The mobile devices of the users in the New York office run iOS. The domain is synced to Azure Active Directory (Azure AD) and includes the users shown in the following table. The domain also includes a group named Group1. Planned Changes Contoso plans to implement the following changes: * Implement Microsoft 365. * Manage devices by using Microsoft Intune. * Implement Azure Advanced Threat Protection (ATP). * Every September, apply the latest feature updates to all Windows computers. Every March, apply the latest feature updates to the computers in the New York office only. Technical Requirements Contoso identifies the following technical requirements: * When a Windows 10 device is joined to Azure AD, the device must enroll in Intune automatically. * Dedicated support technicians must enroll all the Montreal office mobile devices in Intune. * User1 must be able to enroll all the New York office mobile devices in Intune. * Azure ATP sensors must be installed and must NOT use port mirroring. * Whenever possible, the principle of least privilege must be used. * A Microsoft Store for Business must be created. Compliance Requirements Contoso identifies the following compliance requirements: * Ensure that the users in Group1 can only access Microsoft Exchange Online from devices that are enrolled in Intune and configured in accordance with the corporate policy. * Configure Windows Information Protection (WIP) for the Windows 10 devices.
