NEW QUESTION: 2 Jenna Stuart is a financial analyst for Deuce Hardware Company, a U.S. company that reports its results in U.S. dollars. Wayward Distributing, Inc., is a foreign subsidiary of Deuce Hardware, which began operations on January 1, 2007. Wayward is located in a foreign country and reports its results in the local currency called the Rho. Selected balance sheet information for Wayward is shown in the following table. Stuart has been asked to analyze how the reported financial results of Wayward will be affected by the choice of the all-current or temporal methods of accounting for foreign operations. She has gathered the following exchange rate information on the \$/Rho exchange rate: * Spot rate on 1/01/08: \$0.35 per Rho * Spot rate on 12/31/08: \$0.45 per Rho * Average spot rate during 2008: \$0.42 per Rho Will the temporal method report a translation gain or loss for 2008, and will that gain or loss be reported on Deuce's income statement or the balance sheet? **A. Gain on the balance sheet and a loss on the income statement. B. Gain on the balance sheet. C. Loss on the income statement.**
Answer: C
Explanation: Explanation/Reference: Explanation: Exposure under the temporal method is cash and accounts receivable minus current liabilities and long-term debt. Beginning exposure is negative (\$5,000 - \$11,000 = -\$6,000) and the change in exposure is also negative [-\$6,300 - (-\$6,000)] = -\$300. Because the Rho appreciated during the year, the temporal method will report a translation loss for 2008. Gains and losses are reported on the income statement under the temporal method.
