Answer: B

NEW QUESTION: 2 You have an Azure subscription that contains a resource group named RG1. You have a group named Group1 that is assigned the Contributor role for RG1. You need to enhance security for the virtual machines in RG1 to meet the following requirements: * Prevent Group1 from assigning external IP addresses to the virtual machines. * Ensure that Group1 can establish an RDP connection to the virtual machines through a shared external IP address. What should you use to meet each requirement? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point. **Answer:** Explanation:

NEW QUESTION: 3 You are a licensing specialist. Your customer is Litware, Inc., a large company that has 15,000 employees. **Company Background** Litware, Inc. has 15 locations in North America and six locations in Europe and Asia. The company's two divisions are the custom software division and the hosting services division. Both divisions are experiencing significant sales growth. The custom software division creates custom software solutions that account for 75 percent of the total revenue for Litware, Inc. The hosting services division offers Microsoft Exchange and Web hosting services for customers around the world. The company frequently adds 1,000 developers and testers for up to 28 months to work on specific projects. **Network Description** The custom software division creates highly integrated solutions by using Microsoft SQL Server. The solutions must be delivered and deployed by using custom installation media. In the past, Litware, Inc., purchased SQL Server through Full Package Product (FPP). This purchasing method no longer meets the company's solution deployment needs. The hosting services division has one server farm that contains 500 servers. These servers run Microsoft Windows Server, Microsoft Exchange Server, Microsoft Operations Manager Server, Microsoft Systems Management Server, and Microsoft Internet Security and Acceleration Server. These applications are licensed through the company's current Select License agreement. **Current Licensing Solution** Litware, Inc. has no established purchasing procedures. Each location has a different set of desktop products. The offices in Europe and in Asia acquire software licenses under Open License and FPP purchases. The offices do not have Software Assurance for the servers or the desktops. The offices in North America acquire software licenses through a Select License agreement that has Software Assurance for the servers. **Business Goals** The company's executive team suspects that the various locations do not keep track of software purchases and could not prove ownership if the company is audited. The team wants to standardize all desktops. **End of repeated scenario** You need to recommend a licensing solution for the internal use of Microsoft software at Litware, Inc. Which factor most

influences the company's internal licensing solution decision?**A.** the custom software solution business**B.** the increase in sales last year**C.** the number of desktops and servers that the company owns**D.** the fluctuation in the total number of users**E.** the geographic locations of the company's employees**Answer: D**
