Indeed I passed my exam very easily.

NEW QUESTION: 1A customer is preparing a fibre channel attached Windows host system for Storwize V7000 Image mode migration. Which of the following sets of items need to be evaluated and/or upgraded?**A.** SAS host bus adapter card firmware, driver, and multipathing software**B.** FC host bus adapter card firmware, driver, and multipathing software**C.** Ethernet network interface card firmware, driver, and system BIOS**D.** Operating system patches, system firmware, and -SCSI multipathing software**Answer: B**

NEW QUESTION: 2Refer to the exhibit. A network engineer is troubleshooting failed calls from Cisco Unified Border Element to a five-server Cisco Unified Communications Manager cluster. Which option describes the root cause?**A.** A second dial peer for load-balancing and redundancy was not available**B.** Transcoding resource was not allocated**C.** The request was sent to a Cisco Unified Communications manager server that does not belong to the Cisco Unified CM group**D.** Progress Indication was not received.**E.** Run the All Active Nodes option was not checked**Answer: C**

NEW QUESTION: 3A company has implemented the capability to send all log files to a central location by utilizing an encrypted channel. The log files are sent to this location in order to be reviewed. A recent exploit has caused the company's encryption to become unsecure. Which of the following would be required to resolve the exploit?**A.** Install recommended updates**B.** Configure the firewall to block port 22**C.** Utilize a FTP service**D.** Send all log files through SMTP**Answer: A****Explanation:**If the encryption is unsecure then we must look forencryption software updates or patches. If they are available we must install them. As vulnerabilities are discovered, the vendors of the operating systems or applications often respond by releasing a patch. A patch is designed to correct a known bug or fix a known vulnerability in a piece of software. A patch differs from an update, which, in addition to fixing a known bug or vulnerability, adds one or more features to the software being updated.
