NEW QUESTION: 1 Maria works as a professional Ethical Hacker. She is assigned a project to test the security of www.we-are-secure.com. She wants to test a DoS attack on the We-are-secure server. She finds that the firewall of the server is blocking the ICMP messages, but it is not checking the UDP packets. Therefore, she sends a large amount of UDP echo request traffic to the IP broadcast addresses. These UDP requests have a spoofed source address of the We-are-secure server. Which of the following DoS attacks is Maria using to accomplish her task?
A. Fraggle DoS attack
B. Ping flood attack
C. Teardrop attack
D. Smurf DoS attack
Answer: A

NEW QUESTION: 2 DRAG DROP You are developing a Windows Store app. The app will receive text data that has been shared by using the Share charm. The app includes a page named ShareTargetPage that calls the Activate() method. The XAML portion of the ShareTargetPage page contains a button. The app has the following requirements:- When the app is activated by the Share charm, the app must first display the ShareTargetPage page.- When the user clicks the button, the page must receive the shared text and then save the text by using the existing WriteData () method. You need to finish implementing the ShareTargetPage page. How should you complete the relevant code? (To answer, drag the appropriate code segments to the correct locations in the answer area. Each code segment may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.)
Answer:
Explanation:

NEW QUESTION: 3 View the Exhibit and examine the command used to create the ZONEDATA table. The table contains a million rows for zonewise analysis in the DSS system.
