Answer: D

NEW QUESTION: 2DRAG DROP
Drop
Answer: Explanation:

NEW QUESTION: 3An Administrator without access to SmartDashboard installed a new IPSO-based R77 Security Gateway over the weekend. He e-mailed you the SIC activation key and the IP address of the Security Gateway. You want to confirm communication between the Security Gateway and the Management Server by installing the Policy. What might prevent you from installing the Policy?
A. You first need to run the command fw unloadlocal on the R77 Security Gateway appliance in order to remove the restrictive default policy.
B. You have not established Secure Internal Communications (SIC) between the SecurityGateway and Management Server. You must initialize SIC on the Security ManagementServer.
C. An intermediate local Security Gateway does not allow a policy install through it to the remote new Security Gateway appliance. Resolve by running the command fw unloadlocal on the local Security Gateway.
D. You first need to create a new Gateway object in SmartDashboard, establish SIC via the Communication button, and define the Gateway's topology.
Answer: D
