NEW QUESTION: 1The PRIMARY benefit of implementing a security program as part of a security governance framework is the:**A.** enforcement of the management of security risks.**B.** implementation of the chief information security officer's (CISO) recommendations.**C.** reduction of the cost for IT security.**D.** alignment of the IT activities with IS audit recommendations.**Answer: A****Explanation:**Explanation/Reference:Explanation:The major benefit of implementing a security program is management's assessment of risk and its mitigation to an appropriate level of risk, and the monitoring of the remaining residual risks. Recommendations, visions and objectives of the auditor and the chief information security officer (CISO) are usually included within a security program, but they would not be the major benefit. The cost of IT security may or may not be reduced.

NEW QUESTION: 2Place the following steps in the correct order to create a Virtualized Service for a UFT test.**A.** Run the test with a virtualized service**B.** Set the data and performance models for the virtualization project**C.** Deploy the Service Virtualization server**D.** Use the virtualization project in your GUI or API test**E.** Add a virtualization project to your test in UFT and deploy the project**Answer: A,B,C,D,E****Explanation:**Reference:
