Cisco 350-401 test cram - Implementing Cisco Enterprise Network Core Technologies

(350-401 ENCOR)

To give you a better using environment, our [New D-PSC-MN-01 Study Notes](#) experts specialized in the technology have upgraded the system to offer you the Implementing Cisco Enterprise Network Core Technologies (350-401 ENCOR) latest test cram, And you can also send us an e-mail to elaborate your problems about our 350-401 exam torrent.

You can actually grasp the limited time to do as [Real HPE6-A85 Questions](#) much interesting and effective things you like as possible, I used the Estruturit exam study tool and it made my life easier and after the [350-401](#) training was done I gave the online test, when I pass the Cisco exam I was so happy!

Over 3 Million Satisfied Customer and Counting, The 350-401 training prep you see on our website are definitely the highest quality learning products on the market.

Any problem or anything you are confused about [Practice CLA-11-03 Engine](#) Implementing Cisco Enterprise Network Core Technologies (350-401 ENCOR) training material, you can contact our live support, and we will give you immediate response, So there is considerate and concerted [Guaranteed C_THR82_2305 Passing](#) cooperation for your purchasing experience accompanied with patient staff with amity.

Humanized service, The CCNP Enterprise Implementing Cisco Enterprise Network Core Technologies (350-401 ENCOR) valid answers are edited by our Cisco experts through repeatedly research and study, So our three versions of 350-401 learning materials: Implementing Cisco Enterprise Network Core Technologies (350-401 ENCOR) can make different buyers satisfying.

NEW QUESTION: 1 Which two statements about a wireless access point configured with the guest-mode command are true? (Choose two.)
A. It can support more than one guest-mode SSID.
B. If one device on a network is configured in guest mode, clients can use the guest mode SSID to connect to any device on the same network.
C. It allows associated clients to transmit packets using its SSID.
D. It allows clients configured without SSID to associate.
E. It supports associations by clients that perform passive scans.
Answer: D, E

Explanation/Reference: Reference:

NEW QUESTION: 2 What is the correct statement below after examining the R1 routing table?
A. Traffic that is destined to 10.10.10.0/24 from R1 LAN network uses static route instead of RIPv2. But the traffic is forwarded to the ISP instead of the internal network.
B. Traffic that is destined to 10.10.10.0/24 from R1 LAN network uses static route instead of RIPv2. Because the static route AD that is configured is less than the AD of RIPv2.
C. Traffic that is destined to 10.10.10.0/24 from R1 LAN network uses RIPv2 instead of static route. Because the static route AD that is configured is higher than the AD of RIPv2.
D. Traffic that is destined to 10.10.10.0/24 from R1 LAN network uses RIPv2 instead of static route. Because the static route AD that is configured is 255.
Answer: C
Explanation: Configuration are below for the answer.

NEW QUESTION: 3 展示を参照してください。

スイッチがルートブリッジと見なされるのはなぜですか？

A. ブリッジの優先度は1で、すべてのポートが転送中です。

B. ブリッジの優先度は128.19で、すべてのポートが転送中です。

C. スイッチプライオリティ値はゼロです。VLAN1のプライオリティ値が最も低くなっています。

D. VLAN 1およびマクロのスイッチプライオリティは、「このブリッジはルートです」を指定します。

Answer: C

NEW QUESTION: 4 Sie haben 1.000 Computer, auf denen Windows 10 ausgeführt wird und die Mitglied einer Active Directory-Domäne sind. Sie erstellen einen Arbeitsbereich in Microsoft Azure Log Analytics. Sie müssen die Ereignisprotokolle von den Computern in Azure erfassen. Was sollte man tun? Um zu antworten, wählen Sie die entsprechenden Optionen im Antwortbereich aus. HINWEIS: Jede richtige Auswahl ist einen Punkt wert. **Answer:** Explanation: Explanation Reference:

<https://docs.microsoft.com/en-us/azure/azure-monitor/platform/agent-windows> Topic 2, Litware inc This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided. To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study. At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section. To start the case study To display the first question in this case study, click the button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. When you are ready to answer a question, click the Existing Environment Current Business Model The Los Angeles office has 500 developers. The developers work flexible hours ranging from 11:00 to 22:00. Litware has a Microsoft System Center 2012 R2 Configuration Manager deployment. During discovery, the company discovers a process where users are emailing bank account information of its customers to internal and external recipients. Current Environment The network contains an Active Directory domain that is synced to Microsoft Azure Active Directory (Azure AD). The functional level of the forest and the domain is Windows Server 2012 R2. All domain controllers run Windows Server 2012 R2. Litware has the computers shown in the following table. The development department uses projects in Azure DevOps to build applications. Most of the employees in the sales department are contractors. Each contractor is assigned a computer that runs Windows 10. At the end of each contract, the computer is assigned to different contractor. Currently, the computers are re-provisioned manually by the IT department. Problem Statements Litware identifies the following issues on the network: * Employees in the Los Angeles office report slow Internet performance when updates are downloading. The employees also report that the updates frequently consume considerable resources when they are installed. The Update settings are configured as shown in the Updates exhibit. (Click the Updates button.) * Management suspects that the source code for the proprietary applications in Azure DevOps is being shared externally. * Re-provisioning the sales department computers is too time consuming. Requirements Business Goals Litware plans to transition to co-management for all the company-owned Windows 10 computers. Whenever possible, Litware wants to minimize hardware and software costs. Device Management Requirements Litware identifies the following device management requirements: * Prevent the sales department employees from forwarding email that contains bank account information. * Ensure that Microsoft Edge Favorites are accessible from all computers to which the developers sign in. * Prevent employees in the research department from copying patented information from trusted applications to untrusted applications. Technical Requirements Litware identifies the following technical requirements for the planned deployment: * Re-provision the sales department computers by using Windows AutoPilot. * Ensure that the projects in Azure DevOps can be accessed from the corporate network only. * Ensure that users can sign in to the Azure AD-joined computers by using a PIN. The PIN must expire every 30 days. * Ensure that the company name and logo

appears during the Out of Box Experience (OOBE) when using Windows AutoPilot.Exhibits
