NEW QUESTION: 1Your network contains an Active Directory forest named contoso.com. The forest contains one domain.Your company plans to open a new division named Division1. A group named Division1Admins will administer users and groups for Division1.You identify the following requirements for Division1:All Division1 users must have a complex password that is 14 characters.Division1Admins must be able to manage the user accounts for Division1. Division1Admins must be able to create groups, and then delete the groups thatthey create. Division1Admins must be able to reset user passwords and force a password--- -change at the next logon for all Division1 users.You need to recommend changes to the forest to support the Division1 requirements.What should you recommend?More than one answer choice may achieve the goal. Select the BEST answer.**A.** In the forest create a new organizational unit (OU) named Division1 and add Division1Admins to the Managed By attribute of the new OU. Move the Division1 user objects to the new OU. Create a fine-grained password policy for the Division1 users.**B.** Create a new child domain named division1.contoso.com. Move all of the Division1 user accounts to the new domain. Add the Division1Admin members to the Domain Admins group. Configure the password policy in a Group Policy object (GPO).**C.** Create a new forest. Migrate all of the Division1 user objects to the new forest and add the Division1Admin members to the Enterprise Admins group. Configure the password policy in a Group Policy object (GPO).**D.** In the forest create a new organizational unit (OU) named Division1 and delegate permissions for the OU to the Division1Admins group. Move all of the Division1 user accounts to the new OU. Create a fine-grained password policy for the Division1 users.**Answer: D**

NEW QUESTION: 2Which of the following items should not be retained in an E-mail directory?**A.** Permanent records.**B.** Drafts of documents.**C.** Copies of documents.**D.** Temporary documents.**Answer: A**Explanation:This is another matter of common sense, the CISSP exam has many situations like this. Its not a good practice to have Permanent documents in your e-mail, this is because you don't know if your -mail is always backed up, and maybe the document must be available in a corporate repository. There is not problem to have Copies, draft or temporary documents in your e-mail. The important ones for the company are the Permanent documents.

NEW QUESTION: 3Civic Leader: The high cancer rate among our citizens is the result of

hazardous material produced at your plant. Board of Directors: Our statistics show that rates of cancer are high throughout the valley in which the plant is situated because local wells that supply drinking water are polluted, not because of the plant. Which of the following, if true, most seriously weakens the board's claims? **A.** The statistics do not differentiate between types of cancer. **B.** Some of the pollutants cited by the board as contaminating the local wells have been present in the wells for decades. **C.** Cancer-causing chemicals used at the plant are discharged into a nearby river and find their way into local wells. **D.** Nearby communities have not changed the sources of their drinking water. **E.** The plant both uses and produces chemicals that have been shown to cause cancer. **Answer: C** Explanation: Explanation/Reference: Explanation:

NEW QUESTION: 4 Ann is starting a disaster recovery program. She has gathered specifics and team members for a meeting on site. Which of the following types of tests is this? **A.** Full Interruption test **B.** Tabletop exercise **C.** Checklist test **D.** Structured walkthrough **Answer: D** Explanation: A structured walkthrough test of a recovery plan involves representatives from each of the functional areas coming together to review the plan to determine if the plan pertaining to their area is accurate and complete and can be implemented when required.
