Our practice exam guide will [LEAD Latest Questions](#) help you pass CyberArk Sentry - PAM exam with high success rate.

NEW QUESTION: 1A. Option DB. Option CC. Option BD. Option AE. Option EF. Option F
Answer: EExplanation:ExplanationUse-After-Free vulnerabilities are a type of memory corruption flaw that can be leveraged by hackers to execute arbitrary code. Use After Free specifically refers to the attempt to access memory after it has been freed, which can cause a program to crash or, in the case of a Use-After-Free flaw, can potentially result in the execution of arbitrary code or even enable full remote code execution capabilities. According to the Use After Free definition on the Common Weakness Enumeration (CWE) website, a Use After Free scenario can occur when "the memory in question is allocated to another pointer validly at some point after it has been freed. The original pointer to the freed memory is used again and points to somewhere within the new allocation. As the data is changed, it corrupts the validly used memory; this induces undefined behavior in the process."

NEW QUESTION: 2When users log in to Salesforce, either via the user interface, the API, or a desktop client Salesforce CRM confirms the log in is authorized using all of the following EXCEPT:
A. Salesforce CRM then checks whether the user's profile has IP address restrictions. If IP address restrictions are defined for the user's profile, any login from an undesignated IP address is denied and any login from a specified IP address is allowed
B. Salesforce CRM checks whether the organization has login hour restrictions. If login hour restrictions are specified, any login outside the specified hours is denied.
C. If profile-based IP address restrictions aren't set, then Salesforce CRM checks whether the user is logging in from an IP address she or he hasn't used to access Salesforce CRM before
D. Salesforce CRM checks whether the user's profile has login hour restrictions. If login hour restrictions are specified for the user's profile, any login outside the specified hours is denied.
Answer: B
