NEW QUESTION: 2A. Option EB. Option BC. Option DD. Option FE. Option AF. Option C

Answer: C, DExplanation:ExplanationWe need to allow Lync federation with only three specific domains to enable Lync communications with those domains.In the Lync Online admin center, you can configure options for external communications. You have three options. The default option is turned off completely; no external communications. To enable external communications, you can block specific domains but allow all other domains or as in this question, we can allow only specific domains by selecting the "On only for allowed domains". With this option selected, we need to list the domains that are allowed. We need to add the three domains to the Blocked Or Allowed Domains list and select the 'Allowed' option for each domain.

NEW QUESTION: 3In evaluating the hierarchy of authority in tax law, which of the following carries the greatest authoritative value for tax planning of transactions?**A.** Internal Revenue Code.**B.** Tax court decisions.**C.** IRS agents' reports.**D.** IRS regulations.**Answer: A**Explanation:ExplanationNote: This question is addressed in your Appendix D text materials. We are confident that our students would be able to respond correctly over 85% of the time without any guidance on this topic.The answer is rather obvious. Just by looking at the answer options, you will immediately notice that Option A is presented in title case. This would be a quick sign that it may be the correct response.Further, we suspect that most students would narrow the options down to "a" or "b" by simply using common sense.While we are confident that our

students would fare well on this question if it appeared on their exams, we present the following detailed explanation of the answer options. Choice "a" is correct. According to the IRS's website under Tax Code, Regulations and Official Guidance, the "federal tax law begins with the Internal Revenue Code (IRC), [which was] enacted by Congress in Title 26 of the United States Code (26 U.S.C.)." The IRC holds the most authoritative value. Choice "b" is incorrect. According to the IRS's website under Tax Code, Regulations and Official Guidance, the IRS regulations or "Treasury regulations (26 C.F.R.)-commonly referred to as Federal tax regulations-pick up where the Internal Revenue Code (IRC) leaves off by providing the official interpretation of the IRS by the U.S. Department of Treasury." Regulations give directions on how to apply the law outlined in the Internal Revenue Code. Regulations have the second most force and effect, second only to the IRC. Choice "c" is incorrect. Tax court decisions interpret the Internal Revenue Code. They do not have the authority of the IRC. Choice "d" is incorrect. The reports of IRS agents are used to report on specific taxpayer situations. IRS agents' reports apply the Internal Revenue Code, IRS regulations, and other forms of authoritative literature, but they do not hold the value that the IRC, the IRS regulations, or even tax court decisions have. Individual Taxation - Exemptions

NEW QUESTION: 4 What are three major features of Cisco Defense Orchestrator? (Choose three.)
A. Identifying anomalous traffic in customer's network
B. Receive notifications about any unplanned changes to security policies and objects
C. Plan and model security changes before deploying them across the cloud
D. Providing retrospective security to protect against malware
E. Tracking suspicious files through the network
F. Ability to deploy changes across virtual environments in real time or offline
Answer: B,C,F
