2024 Newest 100% Free N10-008 – 100% Free Real Dumps Free | N10-008 Interactive Testing Engine

If you find any error in our any N10-008 practice test, we will reply you actively and immediately, we encourage all candidates' suggestions and advice which enable us to release better N10-008 learning materials.

In N10-008 exam dumps, you can do it, Many people worry that the electronic N10-008 guide torrent will boost virus and even some people use unprofessional anti-virus software which will misreport the virus.

And if you buy the value pack, you have all of the three versions, the price is quite preferential and you can enjoy all of the study experiences, Many people may wonder why our N10-008 test questions are so popular worldwide.

NEW QUESTION: 1 Refer to the exhibit. What should the destination IP address be configured as on the HQ and BR1 SIP trunks? **A.** The destination IP address will be learned automatically and configured on the SIP trunks after the Cisco Unified Communications Managers discover themselves. **B.** The HQ SIP trunk destination IP address should be 10.1.6.10. The BR1 SIP trunk destination IP address should be 10.1.5.10. **C.** The destination IP address is not configurable. Each cluster will learn about the remote trunk IP address through SAF learned routes. **D.** The HQ SIP trunk destination IP address should be the HQ SAF Forwarder IP address. The BR1 SIP trunk destination IP address should be the BR1 SAF Forwarder IP address. **Answer: C** **Explanation:** Incorrect answer: ACD The gatekeeper changes the IP address of this remote device dynamically to reflect the IP address of the remote device. **Link:**
http://www.cisco.com/en/US/docs/voice_ip_comm/cucm/admin/8_6_1/ccmsys/a08trnk.html

NEW QUESTION: 2 What is benefit server visualization? **A.** Enhanced data availability **B.** Enhance compute efficiency **C.** Operations systems updated automatically **D.** Application deployment in weeks and months **Answer: D**

NEW QUESTION: 3 Your company has two main offices and 10 branch offices. Each office is configured as a separate Active Directory site. The main offices sites are named Site1 and Site2. Each office connects to Site1 and Site2 by using a WAN link. Each site contains a domain controller that runs Windows Server 2008. You are redesigning the Active Directory infrastructure. You plan to implement domain controllers that run Windows Server 2012 and decommission all of the domain controllers that run Windows Server 2008. You need to recommend a placement plan for the Windows Server 2012 domain controllers to meet the following requirements: Ensure that users can log on to the domain if a domain controller or a WAN link fails. Minimize the number of domain controllers implemented. What should you include in the recommendation? (Each correct answer presents part of the solution. Choose all that apply.) **A.** A writable domain controller in Site1 **B.** Writable domain controllers in the branch office sites **C.** A writable domain controller in Site2 **D.** Read-only domain controllers (RODCs) in the branch office sites **Answer: A, C** **Explanation:** Writable domain controllers in Site1 and Site2 are enough as we should minimize the number of domain controllers. **Incorrect:** Not A, not D Writable domain controllers are not needed to authenticate users at the branch offices, as each branch office connects to both Site1 and Site2.

NEW QUESTION: 4 **A.** Option A **B.** Option C **C.** Option B **D.** Option D **Answer: B, C**
