NEW QUESTION: 2DRAG DROP A company has an Active Directory Domain Services (AD DS) forest. The company has a wholly owned subsidiary with which it shares some IT resources. Each company has its own Active Directory domain within the forest. Each company has two Active Directory sites in its domain: one site for the company's main office and one site for the company's branch office. You are designing a software update strategy for both companies. The strategy must meet the following requirements: Reduce network traffic. Allow the deployment of unique updates within each domain. Prevent subsidiary branch office employees from approving or denying updates. Allow administrators in the main company to approve or deny their own updates. You need to specify the placement and configuration of Windows Server Update Services (WSUS) servers. What should you do? To answer, drag the appropriate server configuration or configurations to the correct location or locations in the answer area. (Use only server configurations that apply.)----**Answer:** Explanation:

NEW QUESTION: 3CORRECT TEXT _____ is the process of softening a selection by gradually reducing opacity to a specified number of pixels extending equally inside and outside a selection edge.**Answer:** Explanation:FeatheringExplanation:Feathering is the process of softening a selection by gradually reducing opacity to a specified number of pixels extending equally inside and outside a selection edge. Feathering blends a selection with its background by applying transparency to the selection's outer pixels. As the feathering extends outward, it becomes increasingly transparent. The feathering isn't apparent until you move, cut, copy, or fill the selection.

NEW QUESTION: 4What is the initial task of tolling out a Robotic Operating Model?**A.** Initial task of assigning roles and responsibilities to all tasks across the automation programme**B.** Initial task of replacing all IT related projects with RPAC**C.** Initial task of reviewing what processes are to be automated**D.** Initial task of working out what methodology is going to be adhered to in the model**Answer: C**
