By the words, not only you can use **PK0-005 Accurate Prep Material** on computer at the home, but also use on computer at the company.

**NEW QUESTION: 1**How does Protocol Independent Multicast function?**A.** It uses broadcast routing information to perform the multicast forwarding function.**B.** In sparse mode it establishes neighbor adjacencies and sends hello messages at 5-second intervals.**C.** It uses unicast routing information to perform the multicast forwarding function.**D.** It uses the multicast routing table to perform the multicast forwarding function.**Answer: C****Explanation:** ExplanationAlthough PIM is called a multicast routing protocol, it actually uses the unicast routing table to perform the reverse path forwarding (RPF) check function instead of building up a completely independent multicast routing table. Unlike other routing protocols, PIM does not send and receive routing updates between routers.**Reference:**
