NEW QUESTION: 1You plan to deploy a cloud service named contosoapp. The service includes a web role named contosowebrole. The web role has an endpoint named restrictedEndpoint. You need to allow access to restricted Endpoint only from your office machine using the IP address 145.34.67.82. Which values should you use within the service configuration file? To answer, drag the appropriate value to the correct location in the service configuration file. Each value may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.**Answer:** Explanation:ExplanationBox 1: denyBox 2: 0.0.0.0/0We deny everything, 0.0.0.0/0, by default.Box 3: permitBox 4: 145.34.67.82/32Permit only traffic from one specific IP address.

NEW QUESTION: 2An organization that handles sensitive financial information wants to perform tokenization of data to enable the execution of recurring transactions. The organization is most interested in a secure, built-in device to support its solution. Which of the following would MOST likely be required to perform the desired function?**A. eFuseB. TPMC. FPGAD. UEFIE. HSM****Answer: E**

NEW QUESTION: 3You are the Systems Administrator for a large corporate organization. You need to monitor all network traffic on your local network for suspicious activities and receive notifications when an attack is occurring.Which tool would allow you to accomplish this goal?**A. Host-based IDSB. Network-based IDSC. ProxyD. Firewall****Answer: B**Explanation: Explanation/Reference:A network-based intrusion detection system (NIDS) is used to monitor and analyze network traffic to protect a system from network-based threats.A NIDS reads all inbound packets and searches for any suspicious patterns. When threats are discovered, based on its severity, the system can take action such as notifying administrators, or barring the source IP address from accessing the network.References: <https://www.techopedia.com/definition/12941/network-based-intrusion-detection-system-nids>
