While we were at dinner someone said, "Why, there's the President!" and he proved to be just arriving on the Ariel, at the end of the wharf. I stationed myself at once to watch for the coming of McClellan. The President stood on deck with a glass, with which, after a time, he inspected our boat, waving his handkerchief to us. From DHCP on Server2, configure the default gateway server option. **B.** Uses the Connection Manager Administration Kit (CMAK) to create a connection package that specifies Server1 as the target for SSTP-based VPN connections. Use a Group Policy object (GPO) to distribute the CMAK package to each client computer in the temporary office. **C.** Use the Connection Manager Administration Kit (CMAK) to create a connection package that specifies Server1 as the target for SSTP-based VPN connections. Manually distribute the CMAK package to each client computer in the temporary office. **D.** Install the Remote Access server role on Server2. From Routing and Remote Access on Server2, configure a demand-dial interface.
