So every year a large number of people take C_TS414_2023 tests to prove their abilities.

NEW QUESTION: 1 Which of the following statements is CORRECT? **A.** Service owners are more important to service management than process owners **B.** Service owners are as important to service management as process owners **C.** Process owners and service owners are not required within the same organization **D.** Process owners are more important to service management than service owners **Answer: B**

NEW QUESTION: 2 Which two statements are true about a 6to4 tunnel connecting two IPv6 islands over the IPv4 Internet? (Choose two.) **A.** It works by appending the public IPv4 address (converted into hexadecimal format) to the 2002::/16 prefix. **B.** It embeds the IPv6 packet into the IPv4 payload with the protocol type set to 51. **C.** It embeds the IPv6 packet into the IPv4 payload with the protocol type set to 41. **D.** It works by appending the private IPv4 address (converted into hexadecimal format) to the 2002::/16 prefix. **Answer: A, C** Explanation: 6to4 embeds an IPv6 packet in the payload portion of an IPv4 packet with protocol type 41. To send an IPv6 packet over an IPv4 network to a 6to4 destination address, an IPv4 header with protocol type 41 is prepended to the IPv6 packet. The IPv4 destination address for the prepended packet header is derived from the IPv6 destination address of the inner packet (which is in the format of a 6to4 address), by extracting the 32 bits immediately following the IPv6 destination address's 2002::/16 prefix. The IPv4 source address in the prepended packet header is the IPv4 address of the host or router which is sending the packet over IPv4. The resulting IPv4 packet is then routed to its IPv4 destination address just like any other IPv4 packet. Reference: <http://en.wikipedia.org/wiki/6to4>

NEW QUESTION: 3 During the execution phase of a project a defect is found. The project manager takes responsibility and with the correct documentation, begins the task necessary to repair the defect. What process was applied? **A.** Risk management plan **B.** Lessons learned **C.** Risk
