NEW QUESTION: 1The HR Administrator/Line Manager has entered the details of a potential hire. However, the application indicates the existence of a duplicate person record.Which three actions can the HR Administrator/Line Manager take?**A.** modify the existing work relationship to reflect the new one**B.** rehire the employee**C.** no action (Employee Work Relation Exists)**D.** append the last name with the number of duplicate records found**E.** delete the duplicate record**F.** create a new work relationship**Answer: A,B,E****Explanation:**Note: Real-time duplicate prevention finds use in data quality service consuming applications such as Oracle Fusion Receivables and Oracle Fusion Customer Center. When users try to enter a new person, organization, or location record through their UI into the Oracle Fusion trading community registry, the service finds all possible duplicate records that may exist in the registry for an entered record, and assigns a match score to each potential duplicate identified. Based on the match score returned by the service and the threshold settings in the configuration, the calling application can provide the option to either select an existing duplicate record or continue to create a new record.Reference: Oracle Fusion Applications Customer Data Management Implementation Guide 11g, Consuming Applications
