And as you know, the first-class quality comes with the first-class service.

NEW QUESTION: 1 Which of the following are the benefits of the Single sign-on? Each correct answer represents a complete solution. Choose three. **A.** Reducing password fatigue from different user name and password combinations **B.** Increasing IT costs due to lower number of IT help desk calls about passwords **C.** Centralized reporting for compliance adherence **D.** Security on all levels of entry/exit/access to systems without the inconvenience of re-prompting users **Answer: A,C,D** Explanation: Following are the benefits of the Single sign-on: Reduces phishing success, because users are not trained to enter password everywhere without thinking. Reducing password fatigue from different user name and password combinations. Reducing time spent re-entering passwords for the same identity. Can support conventional authentications, such as windows credentials (i.e., username/password). Reducing IT costs due to lower number of IT help desk calls about passwords. Security on all levels of entry/exit/access to systems without the inconvenience of re-prompting users. Centralized reporting for compliance adherence.
