For this reason, Splunk Cloud Certified Admin-devs might be interested in training for this exam as an extension to the skills gained from SPLK-1005.

NEW QUESTION: 1 Refer to the exhibit. Based on the Authentication sources configuration shown, which statement accurately describes the outcome if the user is not found? **A.** If the user is not found in the local user repository a reject message is sent back to the NAD. **B.** If the user is not found in the local user repository and remotelab AD, a reject message is sent back to the NAD. **C.** If the user is not found in the local user repository but is present in the remotelab AD, a reject message is sent back to the NAD. **D.** If the user is not found in the local user repository a timeout message is sent back to the NAD. **E.** If the user is not found in the remotelab AD but is present in the local user repository, a reject message is sent back to the NAD. **Answer: B**

Explanation: Explanation/Reference: Explanation: Policy Manager looks for the device or user by executing the first filter associated with the authentication source. After the device or user is found, Policy Manager then authenticates this entity against this authentication source. The flow is outlined below: * On successful authentication, Policy Manager moves on to the next stage of policy evaluation, which collects role mapping attributes from the authorization sources. * Where no authentication source is specified (for example, for unmanageable devices), Policy Manager passes the request to the next configured policy component for this service. * If Policy Manager does not find the connecting entity in any of the configured authentication sources, it rejects the request. NEW QUESTION: 2 Which of the following is/are FALSE?
I. Interest expenses that are capitalized are charged against investing cash flows.
II. Firms that expense interest costs incurred on debt must treat them as financing cash flows.
III. Firms that expense costs show lower equity than comparable firms that capitalize the costs.
IV. Capitalization of expenses leads to lower tax payments in the first year.
A. III & IV **B.** I, II & IV **C.** II & III **D.** II & IV
Answer: D
Explanation:
Explanation/Reference: Explanation: Interest expenses are treated as operating cash flows under US GAAP. Capitalization leads to higher net income since the entire expenses are not charged against it. Due to this, the tax deductions are lower in the first year, leading to higher taxes. The higher income leads to the capitalizing firm having a higher equity. The difference in equity reduces over time to zero.

NEW QUESTION: 3 What must be true in order to implement offline profiles with Citrix Profile Management?
A. Profile streaming must be disabled.
B. The computer must be joined to a domain.
C. Active write back must be enabled in the profile definition.
D. Locally cached profiles must be deleted when users log off.
Answer: B
