NEW QUESTION: 1While investigating a claim of a user downloading illegal material, the investigator goes through the files on the suspect's workstation. He comes across a file that is just called "file.txt" but when he opens it, he finds the following:What can he infer from this file?
A. An encoded file**B.** A buffer overflow**C.** A picture that has been renamed with a .txt extension
D. An encrypted file**Answer: B**

NEW QUESTION: 2The in-charge auditor most likely would have a supervisory responsibility to explain to the staff assistants:**A.** That fraud is not to be reported to those charged with governance.**B.** Why certain documents are being transferred from the current file to the permanent file.**C.** What benefits may be attained by the assistants' adherence to established time budgets.**D.** How the results of various auditing procedures performed by the assistants should be evaluated.**Answer: D****Explanation:**Explanation/Reference:Explanation:Choice "B" is correct. Assistants should be informed of their responsibilities and the objectives of the procedures that they are to perform. Part of the assistant's responsibility is to properly evaluate audit results, and the in-charge auditor would likely discuss this with them.Choice "A" is incorrect. Fraud that causes a material misstatement or involves senior management should be reported to those charged with governance.Choice "C" is incorrect. Preparation and maintenance of the time budget is related to planning rather than supervision.Choice "D" is incorrect. The reasons for transferring documents from the permanent file to the current file need not be explained to the staff assistants.
