Convenience.

**NEW QUESTION: 1** Wählen Sie für jede der folgenden Aussagen Ja aus, wenn die Aussage wahr ist. Andernfalls wählen Sie Nein. HINWEIS: Jede richtige Auswahl ist einen Punkt wert.**Answer:** Explanation:

**NEW QUESTION: 2** Refer the exhibit. A CUCM engineer configured SAF between two clusters. Based on the SIP INVITE message that is received, what can be concluded?**A.** the call has been forwarded by extension 4050 in the calling cluster**B.** A SIP INVITE message is sent every 15 minutes to maintain the call**C.** A SIP proxy is between the two clusters that are managing signaling**D.** All DTMF methods are supported between the clusters**E.** the route header dictates the incoming SIP trunk is used**Answer: B**

**NEW QUESTION: 3** Scenario Additional Information Further information on some resources who could be involved in the project: Outcome Account Manager: He represents Outcome which is a recruitment agency that provides specialist outsourcing resources. Outcome provided the consultants who carried out the feasibility study and the same consultants will be providing support and guidance to the Information Technology and Facilities teams during the project. Director of Finance Division: She was transferred from the Information Technology Division 12 months ago. She is responsible for ensuring a cost-conscious approach is adopted in all operational and project activities across the Ministry of Food Hygiene. Hardware Manager: Reports to the Director of Information Technology. He provides computer hardware to all business functions but has little awareness of the needs of his colleagues working in software. Payroll Manager: Reports to the Director of Finance. He is a very experienced and efficient qualified accountant who has much of the responsibility of running the Finance Division on behalf of the Director of Finance. He has been involved in drafting the Ministry's business strategy and assisting in a full business risk assessment. He also drafted the corporate Business Case standards. Which 2 alternative actions apply to the proposed Senior User for this project?

**A.** Add 'Hardware Manager' because he provides computer hardware to all business functions and will be impacted by the outcome.**B.** Remove because he has no authority to commit user resources.**C.** Retain because he provides the outsourcing resources required to support the project.**D.** Retain because he will be providing support to the Information Technology and Facilities teams during the project.**E.** Replace with 'Director of Research and Development' because she deals with both the Information Technology and the Facilities Divisions and can make sure her division's needs are specified.**Answer: B,E**

**NEW QUESTION: 4**What is the default interval at which Cisco devices send Cisco Discovery Protocol advertisements?**A.** 60 seconds**B.** 120 seconds**C.** 300 seconds**D.** 30 seconds**Answer: A**  
Explanation: Cisco Discovery Protocol is a Layer 2, media-independent, and network-independent protocol that networking applications use to learn about nearby, directly connected devices. Cisco Discovery Protocol is enabled by default. Each device configured for Cisco Discovery Protocol advertises at least one address at which the device can receive messages and sends periodic advertisements (messages) to the well-known multicast address 01:00:0C:CC:CC:CC. Devices discover each other by listening at that address. They also listen to messages to learn when interfaces on other devices are up or go down. Advertisements contain time-to-live information, which indicates the length of time a receiving device should hold Cisco Discovery Protocol information before discarding it. Advertisements supported and configured in Cisco software are sent, by default, every 60 seconds. Reference: <http://www.cisco.com/en/US/docs/ios-xml/ios/cdp/configuration/15-mt/nm-cdpdiscover.html>
