D. For each organization, configure an external relay domain and a Receive connector.

E. Create the following DNS records: *Contoso.com MX 10 mail.fabrikam.com *Fabrikam.com MX 10 mail.contoso.com

Answer: A,D

Explanation: A: Use a priority above 10. D: "Each company has an Exchange Server 2013 organization". We therefore need to configure an External relay. We also need to configure a Receive connector in each organization to allow the organization to receive email destined for the other organization.
