NEW QUESTION: 3 Alyson was recently given a promotion at work that has increased the caseload of clients she sees on a daily basis. Long hours have led to conflicts with her family life at home. Alyson feels frustrated and pressured, but needs the extra money. Also, if she asks for a demotion, this would reduce her social status within the employment agency. Alyson is currently dealing with what kind of stress?
A. Biopsychosocial **B.** Developmental **C.** Homeostasis **D.** Conflict resolution
Answer: A
Explanation: The biopsychosocial model of stress involves events within the environment that lead to the recognition of stress. Common stressors in this model fall within four main topics: work, social/family, personal and the environment. Biopsychosocial stress affects self-esteem, social status, and self-worth.

NEW QUESTION: 4 Besides specifying the column names and data types, which connection parameters may be defined when defining a FEDERATED table?
A. The user name and password to be used to connect the remote server **B.** The compression method to be used **C.** The operating system of the remote server **D.** The host name of the server where the referenced table is located **E.** The name and database of the referenced table
Answer: A,D,E
Explanation: 29.6. The FEDERATED Engine Connection string format is as follows, where optional parts are shown in square brackets:
mysql://user_name[:password]@host_name[:port]/db_name/table_name
The username, password, hostname, and port number specify what connection parameters to use for connecting to the remote server. The database and table names indicate which table to access on that server.
