It will make you feel the atmosphere of the 6V0-32.24 actual test and remark the mistakes when you practice the exam questions.

NEW QUESTION: 1You are configuring Wireshark on a Cisco Catalyst 4500E Switch with a Supervisor 8. Which three actions can you take to prevent the capture from overloading the CPU? (Choose three.)**A.** Attach the specific ports that are part of the data path.**B.** Add memory to the Supervisor.**C.** Use an in-line filter.**D.** Use an appropriate ACL.**E.** Configure a policy map, class map, and an access list to express the match conditions.**F.** Reconfigure the buffers to accommodate the additional traffic.**Answer: A,C,D****Explanation:**Because packet forwarding typically occurs in hardware, packets are not copied to the CPU for software processing. For Wireshark packet capture, packets are copied and delivered to the CPU, which causes an increase in CPU usage. To avoid high CPU, do the following:- Attach only relevant ports. - Use a class map, and secondarily, an access list to express match conditions. If neither is viable, use an explicit, in-line filter. - Adhere closely to the filter rules. Restrict the traffic type (such as, IPv4 only) with a restrictive, rather than relaxed ACL, which elicits unwanted traffic.**Reference:** http://www.cisco.com/c/en/us/td/docs/switches/lan/catalyst4500/15-12/XE_340/configuration/guide/config/wireshrk.pdf

NEW QUESTION: 2To make sure that your computer is stable and secure, you should _____ Windows after a new installation.**A.** activate**B.** consolidate**C.** flash**D.** update**Answer: D****Explanation:**After installing Windows, check whether Microsoft has any Windows updates including fixes, patches, service packs, and device drivers, and apply them. By adding fixes and patches, you will keep Windows stable and secure. Many fixes or patches are released together as a service pack or a cumulative package.

NEW QUESTION: 3How many responses are received when a router sends an IGMP version 3 query to a specific multicast group with 6 active receivers on the local broadcast domain?**A.** 0**B.** 1**C.** 2**D.** 3**Answer: A**
