**NEW QUESTION: 3**Codes from different code groups within the same catalog type can be grouped together in selected sets.**A.** Incorrect**B.** Correct**Answer: A**

**NEW QUESTION: 4**While preparing the project management plan on a weekly basis, the project

manager indicates the intention to provide an issues report to the staff via e-mail. In which part of the plan will this type of information be included?**A.** Human resource plan**B.**

Communications management plan**C.** Quality management plan**D.** Procurement management plan

**Answer: B**  
Explanation: Explanation/Reference: Explanation: 10.1.3.1 Communications Management Plan  
The communications management plan is a component of the project management plan that describes how project communications will be planned, structured, monitored, and controlled. The plan contains the following information: Stakeholder communication requirements; Information to be communicated, including language, format, content, and level of detail; Reason for the distribution of that information; Time frame and frequency for the distribution of required information and receipt of acknowledgment or response, if applicable; Person responsible for communicating the information; Person responsible for authorizing release of confidential information; Person or groups who will receive the information; Methods or technologies used to convey the information, such as memos, e-mail, and/or press releases; Resources allocated for communication activities, including time and budget; Escalation process identifying time frames and the management chain (names) for escalation of issues that cannot be resolved at a lower staff level; Method for updating and refining the communications management plan as the project progresses and develops; Glossary of common terminology; Flow charts of the information flow in the project, workflows with possible sequence of authorization, list of reports, and meeting plans, etc.; and Communication constraints usually derived from a specific legislation or regulation, technology, and organizational policies, etc. The communications management plan can also include guidelines and templates for project status meetings, project team meetings, e-meetings, and e-mail messages. The use of a project website and project management software can also be included if these are to be used in the project.
