You will only spend dozens of money and 20-30 hours' preparation on our CCSK best questions, passing exam is easy for you, Best quality & fair price.

NEW QUESTION: 1Your company plans to increase the security level for VPNs in its network by using certificates instead of preshared keys. The company wants to introduce its own centrally administered certificate authority from which all device certificates will be derived. You have been asked to automate certification enrollment, re-enrollment, and revocation. How can you implement this?
A. Roll out a certificate automation system that is based on SCEP.
B. Contract out this problem to VeriSign to deliver a solution.
C. Buy certificates that do not need to be renewed from Entrust.
D. Use self-signed certificates on each device and have copies stored centrally.
Answer: A
Explanation: With Simple Certificate Enrollment Protocol (SCEP), you can configure your Juniper Networks device to obtain a certificate authority (CA) certificate online and start the online enrollment for the specified certificate ID. The CA public key verifies certificates from remote peers.

NEW QUESTION: 2A customer has Windows Server Datacenter licenses that have active Software Assurance (SA). The customer plans to migrate Windows Server workloads to Microsoft Azure. You need to identify which benefits support the planned migration. Which two benefits should you identify? Each correct answer presents part of solution. NOTE: Each correct selection is worth one point.
A. Self-Hosted rights
B. Azure Hybrid Benefit
C. License Mobility Across Server Farms
D. Planning Services
E. License Mobility through SA
Answer: B, E

NEW QUESTION: 3Refer to the exhibit. Users report that outbound PSTN calls from phones registered to Cisco Unified Communications Manager are not completing. The local service provider in North America has a requirement to receive calls in 10-digit format. The Cisco Unified CM sends the calls to the Cisco Unified Border Element router in a globalized E.164 format. There is an outbound dial peer on Cisco Unified Border Element configured to send the calls to the provider. The dial peer has a voice translation profile applied in the correct direction but an incorrect voice translation rule applied, which is shown in the exhibit. Which rule modified DNIS in the format that the provider is expecting?
A. rule 1 /
