And we offer you free demo for you to have a try before buying JN0-460 exam materials, so that you can have a better understanding of what you are going to buy.

NEW QUESTION: 1 Click to expand each objective. To connect to the Azure portal, type <https://portal.azure.com> in the browser address bar. When you are finished performing all the tasks, click the 'Next' button. Note that you cannot return to the lab once you click the 'Next' button. Scoring occurs in the background while you complete the rest of the exam. Overview The following section of the exam is a lab. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design. Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task. Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided. Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab. To start the lab You may start the lab by clicking the Next button. You plan to create several virtual machines in different availability zones, and then to configure the virtual machines for load balanced connections from the Internet. You need to create an IP address resource named ip1006 to support the planned load balancing solution. The solution must minimize costs. What should you do from the Azure portal? **Answer:** Explanation: See solution below. Explanation We should create a public IP address.* At the top, left corner of the portal, select + Create a resource.* Enter public ip address in the Search the Marketplace box. When Public IP address appears in the search results, select it.* Under Public IP address, select

Create.* Enter, or select values for the following settings, under Create public IP address, then select Create:Name: ip1006SKU: Basic SKU IP Version: IPv6 IP address assignment: Dynamic Subscription: Select appropriate Resource group: Select appropriate References:

NEW QUESTION: 2 An instructor is preparing to teach a virtual class that requires students to download two large files in order to participate in class. Which of the following is the BEST way to handle the situation?
A. During class introduction, ensure that students receive a link to the files so that they can download them.
B. At the end of the first day, make sure students receive a link to the files so that they can download them.
C. Provide students with a link to the files so that they can download them when needed.
D. Make sure an email is sent with a link to the location with instructions to download before class starts.
Answer: D
Explanation:
Explanation/Reference:Explanation:

NEW QUESTION: 3 Which two statements are true about adding secondary VNICs to an existing compute instance? (Choose two.)
A. The primary and secondary VNIC association must be in the same availability domain
B. You can remove the primary VNIC after the secondary VNIC's attachment is complete
C. The primary and secondary VNIC association can be in different virtual cloud networks (VCNs)
D. You can assign an Ephemeral Public IP to a secondary VNIC
Answer: A, C
Explanation:Explanation "You can add secondary VNICs to an instance after it's launched. Each secondary VNIC can be in a subnet in the same VCN as the primary VNIC, or in a different subnet that is either in the same VCN or a different one. However, all the VNICs must be in the same availability domain as the instance."
<https://docs.cloud.oracle.com/en-us/iaas/Content/Network/Tasks/managingVNICs.htm>
