NEW QUESTION: 2What is the default preference value for a static route in the Nokia 7750 SR?**A. 0B. 1C. 2D. 3Answer: B**

NEW QUESTION: 3You administer a Microsoft SQL Server 2012 database instance.The instance is running on a server with the following configuration:1TB RAMSAN storage for database and log files4 quad-core processors64-Bit Windows 2008R2 operating systemThis instance hosts a database with large partitioned tables. Users report that complex queries are taking a long time to complete.While troubleshooting, you discover that CPU utilization is low (less than 20 percent), disk activity is low (little or no waiting processes), and no significant blocking is occurring.You need to ensure that the instance can process queries as quickly and efficiently as possible.Which setting should you configure?Hot Area:**Answer: Explanation:**

NEW QUESTION: 4A user has received an email from an external source which asks for details on the company's new product line set for release in one month. The user has a detailed spec sheet but it is marked "Internal Proprietary Information". Which of the following should the user do NEXT?**A. Provide the requestor with the email information since it will be released soon anywayB. Reply back to the requestor to gain their contact information and call themC. Contact their manager and request guidance on how to best move forwardD. Contact the help desk and/or incident response team to determine next stepsAnswer: DExplanation:**This is an incident that has to be responded to by the person who discovered it- in this case the user. An incident is any attempt to violate a security policy, a successful penetration, a compromise of a system, or any unauthorized access to information. It's important that an incident response policy establish at least the following items:Outside agencies that should be contacted or notified in case of an incidentResources used to deal with an incidentProcedures to gather and secure evidenceList of information that should be collected about an incidentOutside experts who can be used to address issues if neededPolicies and guidelines regarding how to handle an incidentSince the spec sheet has been marked Internal Proprietary Information the user should refer the incident to the incident response team.Incorrect Answers:A. The manager may or may not be part of the incident response team.C. The information has been marked Internal Proprietary Information and providing the information to the requestor would be in violation to the company.D. You should have the incident response team handle the situation rather than addressing the issue yourself.References:Du Dulaney, Emmett and Chuck Eastton, CompTIA Security+ Study Guide, 6th Edition, Sybex, Indianapolis, 2014, pp.444-447
