Downloadable PDF WGU Cybersecurity-Architecture-and-Engineering Version.

NEW QUESTION: 1 Which feature is available to help you trace pages and page elements through a test? **A.** The protocol data view provides request, response, and a browser view of the data. **B.** Pages are linked to page elements in the page element data section. **C.** The page names correlate with the test activity. **D.** Chunked data views are available. **Answer: A**

NEW QUESTION: 2 You need to recommend a solution for deploying charts by using Helm and Title to Azure Kubemets Service (AKS) in an RBAC-enabled cluster. Which three commands should you recommend be run in sequence? To answer, move the appropriate commands from the list of commands to the answer area and arrange them in the correct order. **Answer:**
Explanation: Explanation Step 1: Kubectl create You can add a service account to Tiller using the --service-account <NAME> flag while you're configuring Helm (step 2 below). As a prerequisite, you'll have to create a role binding which specifies a role and a service account name that have been set up in advance. Example: Service account with cluster-admin role \$ kubectl create -f rbac-config.yaml serviceaccount "tiller" created clusterrolebinding "tiller" created \$ helm init --service-account tiller Step 2: helm init To deploy a basic Tiller into an AKS cluster, use the helm init command. Step 3: helm install To install charts with Helm, use the helm install command and specify the name of the chart to install. References:
<https://docs.microsoft.com/en-us/azure/aks/kubernetes-helm>
https://docs.helm.sh/using_helm/#tiller-namespaces-and-rbac

NEW QUESTION: 3 Refer to the exhibit. An engineer is trying to determine the status of the ISDN D Channel on a new PRI circuit, types in the show isdn status command, and sees this output. Which two pieces of information can be determined from this output? (Choose two.) **A.** The

connection to the Cisco Unified Communications Manager has been established.**B.** There are four channels.**C.** The provider is using the 5ESS protocol.**D.** No active calls are established.**E.** The D channel is working correctly.**Answer: D,E**
