NEW QUESTION: 1A team member from research and development tells you that her work is too creative to provide you with a fixed single estimate for the activity. You both decide to use the average labor hours per installation from past projects to predict the future. This is an example of which of the following?**A.** Three-point estimating**B.** Parametric estimating**C.** Monte Carlo analysis**D.** Analogous estimating**Answer: B**

NEW QUESTION: 2TP Banking is a strong financial institute with a well-known acquisition history with an internal IT department managing over 100 projects related to infrastructure and services. The CIO has decided to create an Enterprise Architecture based on TOGAF 9 as reaction to the difficult market conditions. An Architecture Vision and a set of domain architectures were approved. The CIO is asking you (the Lead Architect) to define an Implementation and Migration Plan that realizes the vision already agreed with the stakeholders involved. Refer to the scenario above You are leading a group of domain architects and you are working with the corporate PMO, the business strategy team and service operations. You are meeting the stakeholders to clarify how you want to proceed with the Implementation and Migration Plan. Choose one of the following answers**A.** You describe the concept of Transition Architectures and clarify that the business value can be achieved by all the projects delivering their increments in a coordinated approach. Capability gaps and project dependencies are analyzed for each domain this will then enable the projects to be organized in work packages. You will then agree on the roadmap for the implementation and migration strategy meeting with all the key stakeholders.**B.** You propose to start collecting the existing deliverables describing the different domains in order to enable the Enterprise Architecture team to integrate them with the support of the operation management. Every domain architect will then evaluate the impact on the projects already planned for the domain. The single revised plans will be integrated together and consolidated into a strategic implementation and migration strategy defining an IT roadmap.**C.** You communicate the need for urgency. The projects already planned will be cancelled and the implementation of the new architecture vision will be set as first priority. A set of new projects will be defined to implement the new strategy. You will use the requirements from Phases B through D and define new projects for each one of the requirements. The use of defined interoperability architecture guidelines will then enable the project teams to work together and define a set of new point-to-point interfaces.**D.** You communicate the CIO's will to transform the corporation and then that he's seeking help from

the domain architects to do that. The requirements are managed in order to enable every Architect to participate to the planning that will result in a detailed list of work activities with impact on the IT portfolio of projects. A five year Target Architecture will then be defined and a report will keep track of dependencies and factors assessment.**Answer: A**

NEW QUESTION: 3After setting up several Active Directory users for different OU's, you discover that the IT technician has miss spelt theOffice property as Londn instead of London. Which tool should you use to correct the changes to all of the OU's at once?**A.** Multi select the users using the Ctrl key and opening Properties**B.** Use Dsquery and Dsmmod**C.** Use Dsget and Dsmmod**D.** Use MoveTo or MoveHere**Answer: B**Explanation:You can use Dsquery to query AD users by property values. So in this case we could query on the miss spelt wordLondon.

NEW QUESTION: 4Your customer sells a wide variety of Mobile phones. To classify service requests efficiently you plan to create a new primary category called Mobile Phones.Which four steps are required to define this new category?**A.** Select Status = "Active".**B.** Select Create Category > Create Top-Level Category.**C.** Select Create Category > Create Child Category.**D.** Select the task Manage Service Request Categories.**E.** Check the Active flag.**F.** Complete Category Name.**G.** Select Service Catalog in Functional Areas.**Answer: A,B,C,D**Explanation: Explanation/Reference:
