How often do you release your Ethics-In-Technology products updates, The Best WGU Ethics-In-Technology Cert Exam, Test engine is an exam simulation that brings you to feel the atmosphere of Ethics-In-Technology real exam.

Free Updates for 3 Months.

**NEW QUESTION: 1** Referring to the screenshot below, which area of the Windows GUI is accessed to initiate the McAfee scan? **A.** Windows File Explorer **B.** Notification area **C.** Quick Launch icons **D.** Start Menu **Answer: B**

**NEW QUESTION: 2** You have been tasked with deploying FortiGate VMs in a highly available topology on the Amazon Web Services (AWS) cloud. The requirements for your deployment are as follows: \* You must deploy two FortiGate VMs in a single virtual private cloud (VPC), with an external elastic load balancer which will distribute ingress traffic from the internet to both FortiGate VMs in an active-active topology. \* Each FortiGate VM must have two elastic network interfaces: one will connect to a public subnet and other will connect to a private subnet. \* To maintain high availability, you must deploy the FortiGate VMs in two different availability zones. How many public and private subnets will you need to configure within the VPC? **A.** One public subnet and two private subnets **B.** Two public subnets and two private subnets **C.** Two public subnets and one private subnet **D.** One public subnet and one private subnet **Answer: A**

**NEW QUESTION: 3** Click to expand each objective. To connect to the Azure portal, type <https://portal.azure.com> in the browser address bar. When you are finished performing all the tasks, click the 'Next' button. Note that you cannot return to the lab once you click the 'Next' button. Scoring occur in the background while you complete the rest of the exam. Overview The following section of the exam is a lab. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design. Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task. Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided. Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab. To start the lab You may start the lab by clicking the Next button. You need to deploy an application gateway named appgw1015 to meet the following requirements: \* Load balance internal IP traffic to the Azure virtual machines connected to subnet0. \* Provide a Service Level Agreement (SLA) of 99,99 percent availability for the Azure virtual machines. What should you do from the Azure portal? **Answer:** Explanation: See explanation below. Explanation Step 1: Click New found on the upper left-hand corner of the Azure portal. Step 2: Select Networking and then select Application Gateway in the Featured list. Step 3: Enter these values for the application gateway: appgw1015 - for the name of the application gateway. SKU Size: Standard\_V2 The new SKU [Standard\_V2] offers autoscaling and other critical performance

enhancements. Step 4: Accept the default values for the other settings and then click OK. Step 5: Click Choose a virtual network, and select subnet0. References: <https://docs.microsoft.com/en-us/azure/application-gateway/application-gateway-create-gateway-portal>

**NEW QUESTION: 4** You must implement a backup solution for your Autonomous Data Warehouse (ADW) that will enable you to restore data as old as one year with a recovery point objective (RPO) of 10 days. Which database backup strategy would you select? **A.** Use the automated backups. **B.** Take weekly manual backups to supplement the automated backups and preserve them for 12 months. **C.** Take monthly manual backups to supplement the automated backups and preserve them for 12 months. **D.** Take quarterly manual backups to supplement the automated backups and preserve them for 12 months. **Answer: A** Explanation: Oracle Cloud Infrastructure automatically backs up your Autonomous Databases and retains these backups for 60 days. Automatic backups are weekly full backups and daily incremental backups. You can also create manual backups to supplement your automatic backups. Manual backups are stored in an Object Storage bucket that you create, and are retained for 60 days. The retention period for manual backups is the same as automatic backups which is 60 days. So we cannot preserve the backup for 12 months <https://docs.oracle.com/en/cloud/paas/autonomous-data-warehouse-cloud/user/backup-manual.html#GUID-D95E>
