**NEW QUESTION: 1**You are the Office 365 administrator for your company. The company has two administrators named User1 and User2. Users must be able to perform the activities as shown in the following table: You need to grant the appropriate administrative role to each user. What should you do? To answer, drag the appropriate role to the correct user. Each role may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. **Answer:** Explanation: Explanation User1 has to be the Password administrator which will allow for User1 to reset passwords, manage service requests, and monitor service health. Password admins are limited to resetting passwords for users and other password admins. User2 has to be the global administrator to have access to all administrative features. Global admins are the only admins who can assign other admin roles. This will enable User2 the ability to reset passwords for all administrator accounts.
