NEW QUESTION: 1

クラウドコンピューティングの次の側面のうち、クラウドプロバイダーが特定の認定要件を満たすことを望まない可能性が高くなるのはどれですか。**A. 仮想化B. 規制C. マルチテナンシーD. リソースプーリング****Answer: C****Explanation:**With cloud providers hosting a number of different customers, it would be impractical for them to pursue additional certifications based on the needs of a specific customer. Cloud environments are built to a common denominator to serve the greatest number of customers. Especially within a public cloud model, it is not possible or practical for a cloud provider to alter its services for specific customer demands.Resource pooling and virtualization within a cloud environment would be the same for all customers, and would not impact certifications that a cloud provider might be willing to pursue. Regulations would form the basis for certification problems and would be a reason for a cloud provider to pursue specific certifications to meet customer requirements.
