NEW QUESTION: 3**A.** Option **C****B.** Option **A****C.** Option **E****D.** Option **D****E.** Option **B****Answer: B**Explanation:Using Security Intelligence WhitelistsIn addition to a blacklist, each access control policy has an associated whitelist, which you can also populate with Security Intelligence objects. A policy's whitelist overrides its blacklist. That is, the system evaluates traffic with a whitelisted source or destination IP address using access control rules, even if the IP address is also blacklisted. In general, use the whitelist if a blacklist is still useful, but is too broad in scope and incorrectly blocks traffic that you want to inspect.Source:
