NEW QUESTION: 1Which statement is correct when using a theme in an XPage application?**A.** Themes are restricted to using CSS styles.**B.** Themes are a standard XML design element and can be used in any HTML application including XPages.**C.** Themes allow the designer to set and control any XML property.**D.** Themes can be used in any CSS style sheet.**Answer: C**

NEW QUESTION: 2Passwords are frequently used to control access to computer systems. Which of the following characteristics should a password have in order to make it effective?**A.** Passwords should be short words or names that users will easily remember.**B.** Passwords should contain 20 characters or more.**C.** Passwords should be changed on a regular basis.**D.** Passwords should be written down in a secret place.**E.** Passwords should never be shared.**F.** The strength of a password is increased by using upper and lower case and including numerals.**Answer: C,E,F**

NEW QUESTION: 3Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.You plan to store delimited text files in an Azure Data Lake Storage account that will be organized into department folders.You need to configure data access so that users see only the files in their respective department folder.Solution: From the storage account, you disable a hierarchical namespace, and you use access control lists (ACLs).Does this meet the goal?**A.** Yes**B.** No**Answer: A**Explanation:ExplanationAzure Data Lake Storage implements an access control model that derives from HDFS, which in turn derives from the POSIX access control model.Blob container ACLs does not support the hierarchical namespace, so it must be disabled.
