NEW QUESTION: 1A. Option AB. Option CC. Option BD. Option DAnswer: A

NEW QUESTION: 2What is the main difference between traditional programming and machine learning?**A.** Machine learning does not require explicit coding of decision logic.**B.** Machine learning models take less time to train.**C.** Machine learning is optimized to run on parallel computing and cloud computing.**D.** Machine learning takes full advantage of SDKs and APIs.
Answer: A

NEW QUESTION: 3Hector Martinez is a loan officer in a non-community property state. He receives a verbal request for a small business working capital loan from Leon Rogers for his technology consulting business. The business is a sole proprietorship. Mr. Rogers gives Hector a written business plan for his business, a financial statement for the business for the past two years, and a personal financial statement that includes information on himself and his wife. Can Hector assume that the application is a joint application from Mr. Rogers and his wife?**A.** Yes. Because the business is a sole proprietorship, the spouse's financial information is important.**B.** Yes. Because the financial statement is signed by both Mr. and Mrs. Rogers and includes joint information, the application can be considered to be from both spouses.**C.** No. Because the business is a sole proprietorship, the bank should assume the application is for individual credit.**D.** No. The bank cannot assume the application is a joint one simply on the basis of submission of joint financial information.**Answer: D**
