NEW QUESTION: 1Which of the following is true of biometrics?**A.** It is used for identification in physical controls and for authentication in logical controls.**B.** It is used for identification in physical controls and it is not used in logical controls.**C.** Biometrics has not role in logical controls.**D.** It is used for authentication in physical controls and for identification in logical controls.**Answer: A****Explanation:**When used in physical control biometric Identification is performed by doing a one to many match. When you submit your biometric template a search is done through a database of templates until the matching one is found. At that point your identity is revealed and if you are a valid employee access is granted.When used in logical controls the biometric template is used to either confirm or deny someone identity. For example if I access a system and I pretend to be user Nathalie then I would provide my biometric template to confirm that I really am who I pretend to be.Biometric is one of the three authentication factor (somethin you are) that can be use. The other two are something you know and something you have.Source: KRUTZ, Ronald L. & VINES, Russel D., The CISSP Prep Guide: Mastering theTen Domains of Computer Security, 2001, John Wiley & Sons, Page 38
