NEW QUESTION: 1A. Office 365 Enterprise E3 and Cloud PBXB. Office 365 Enterprise E5 and Cloud PBXC. Office 365 Enterprise E5 and an International Calling planD. Office 365 Enterprise E3, Cloud PBX, and an International Calling plan**Answer: C****Explanation:**Topic 6, Proseware, Inc. (Case Study)OverviewProseware, Inc. is a software company. Proseware has 5,000 employees, of which 3,500 employees work in production, 1,000 employees are development engineers, and 500 employees work in sales, marketing, and administration. Existing EnvironmentCurrent EnvironmentProseware has an Enterprise Agreement (EA) that includes Microsoft Office Professional Plus, Microsoft Core CAL Suite, and Windows 10 Enterprise. The company's on-premises datacenter contains servers that run Windows Server Datacenter to support unlimited visualization. Windows Server was purchased as an additional product through the EA. The company has a total of 160 Windows Server Datacenter core licenses. Problem StatementsProseware identifies the following issues: * The hardware and supporting infrastructure of the on-premises datacenter is outdated. * The most experienced employees in the IT department are retired and the company fails to replace them with qualified candidates. RequirementsBusiness GoalsProseware has the following business goals: * Use the latest technologies and products. * Ensure that all new purchases have price protection for three years. * Update the infrastructure without a large upfront investment and without tying up capital. * Outsource the management of and global migration strategy for online services while minimizing costs. * Maintain the on-premises datacenter while reducing the number of IT employees required to support it. * Leverage the existing investment in on-premises products to reduce the overall cost of online services. * Provide a modern work environment for the development engineers to work remotely and on any device while protecting the company's intellectual property. Planned ChangesProseware plans to implement the following changes: * When the current EA expires, move to equivalent Microsoft Online Services that have the highest security standards for all workloads. * Obtain a management tool for the on-premises servers.
