NEW QUESTION: 3 DRAG DROP Drag and drop the role on the left onto their responsibility in the change-management process on the right **Answer:** Explanation:

NEW QUESTION: 4 What Cloud Deployment model consist of a cloud infrastructure provisioned for exclusive use by a single organization comprising multiple consumers (e.g., business units)? Such deployment model may be owned, managed, and operated by the organization, a third party, or some combination of them, and it may exist on or off premises. **A.** Public Cloud **B.** Hybrid Cloud **C.** Private Cloud **D.** Community Cloud **Answer: C** Explanation: A Private cloud. The cloud infrastructure is provisioned for exclusive use by a single organization comprising multiple consumers (e.g., business units). It may be owned, managed, and operated by the organization, a third party, or some combination of them, and it may exist on or off premises. Other Cloud Deployment Models are: Community cloud. The cloud infrastructure is provisioned for exclusive use by a specific community of consumers from organizations that have shared concerns (e.g., mission, security requirements, policy, and compliance considerations). It may be owned, managed, and operated by one or more of the organizations in the community, a third party, or some combination of them, and it may exist on or off premises. Public cloud. The cloud infrastructure is provisioned for open use by the general public. It may be owned, managed, and operated by a business, academic, or government organization, or some combination of them. It exists on the premises of the cloud provider. Hybrid cloud. The cloud infrastructure is a composition of two or more distinct cloud infrastructures (private, community, or public) that remain unique entities, but are bound together by standardized or proprietary technology that enables data and application portability (e.g., cloud bursting for load balancing between clouds). The following reference(s) were/was used to create this

question:NIST Special Publication 800-145 The NIST definition of Cloud Computing and also see NIST Special Publication 800-146 The Cloud Computing Synopsis and Recommendations
