It is well-known that the training of C_SAC_2415 goes through the moment of increasing demands in the field of IT industry.

NEW QUESTION: 1 Lauren's company's security policy is to prevent against unforeseen snooping on local databases. Which local database encryption choice reflects her security policy? **A.** Simple Encryption **B.** Medium Encryption **C.** Strong Encryption **D.** Do not encrypt local databases **Answer: C**

NEW QUESTION: 2 Which statement about SNMP support on the Cisco ASA appliance is true? **A.** The Cisco ASA appliance supports three built-in SNMPv3 groups in Cisco ASDM: Authentication and Encryption, Authentication Only, and No Authentication, No Encryption. **B.** The Cisco ASA appliance can send SNMP traps to the network management station only using SNMPv2. **C.** The Cisco ASA appliance supports only SNMPv1 or SNMPv2c. **D.** The Cisco ASA appliance supports read-only and read-write access. **Answer: A** Explanation:

http://www.cisco.com/en/US/docs/security/asa/asa82/configuration/guide/monitor_snmp.html#wp1_042029 SNMP Version 3 Overview SNMP Version 3 provides security enhancements that are not available in SNMP Version 1 or SNMP Version 2c. SNMP Versions 1 and 2c transmit data between the SNMP server and SNMP agent in clear text. SNMP Version 3 adds authentication and privacy options to secure protocol operations. In addition, this version controls access to the SNMP agent and MIB objects through the User-based Security Model (USM) and View-based Access Control Model (VACM). The ASA 5500 series ASAs also support the creation of SNMP groups and users, as well as hosts, which is required to enable transport authentication and encryption for secure SNMP communications. Security Models For configuration purposes, the authentication and privacy options are grouped together into security models. Security models apply to users and groups, and are divided into the following three types: NoAuthPriv-No Authentication and No Privacy, which means that no security is applied to messages. AuthNoPriv-Authentication but No Privacy, which means that messages are authenticated. AuthPriv-Authentication and Privacy, which means that messages are authenticated and encrypted.

NEW QUESTION: 3 HOTSPOT A company runs Linux and Windows virtual machines (VMs) in a secured virtual network. You deploy Azure ExpressRoute. You need to recommend a solution that allows the company to investigate unusual network traffic for layer-2 and layer-3 protocols and ports. What should you recommend? To answer, select the appropriate options in the

answer area. NOTE: Each correct selection is worth one point. Hot Area: **Answer:** Explanation: Explanation/Reference: Explanation: Wire data is consolidated network and performance data collected from Windows-connected and Linux-connected computers with the OMS agent, including those monitored by Operations Manager in your environment. Network data is combined with your other log data to help you correlate data. In addition to the OMS agent, the Wire Data solution uses Microsoft Dependency Agents that you install on computers in your IT infrastructure. Dependency Agents monitor network data sent to and from your computers for network levels 2-3 in the OSI model, including the various protocols and ports used. Data is then sent to Log Analytics using agents. Box 1: Deploy the Microsoft Dependency Agent to the VMs Box 2: Use the OMS Wire Data Solution Not Azure Monitor: Azure Monitor provides base-level infrastructure metrics and logs for most services in Microsoft Azure Reference: <https://docs.microsoft.com/en-us/azure/log-analytics/log-analytics-wire-data>

NEW QUESTION: 4 Which statement about the Avaya Aura® Call Center Elite is correct? **A.** The components must run on the same dedicated hardware server **B.** The components are virtualized and some components can be leveraged using mobile devices **C.** The only components that are deployed virtually are System Manager and Communication Manager **D.** The components are virtualized and are all available in modular components **Answer: A**
