NEW QUESTION: 1 Acme Corporation indicates that their network design must support the ability to scale to support a high number of remote sites. Which IGP is considered to scale better for a hub-and-spoke topology? **A. OSPF B. BGP C. EIGRP D. IS-IS**
Answer: C
Explanation: Explanation/Reference: <http://www.ciscopress.com/articles/article.asp?p=417092&seqNum=2> "EIGRP, in theory, scales much better in a hub-and-spoke topology-and this is true in real networks, too"

NEW QUESTION: 2 展示を参照してください。

EIGRPを実行するとき、RouterAがRouterCとルーティングアップデートを交換するために何が必要ですか。 **A.**

ルーターBには、接続されたネットワークごとに1つずつ、合計2つのネットワークステートメントが必要です。 **B.** DRが選出されるようにループバックインタフェースを設定する必要があります。 **C.** ルータAとルータCでno auto-summaryコマンドが必要です **D.**

すべてのルータで一致するようにAS番号を変更する必要があります **Answer: D**
Explanation: Here we required same autonomous system between router A,B,C. Routing updated always exchange between in same EIGRP autonomous system. you can configure more than one EIGRP autonomous system on the same router. This is typically done at a redistribution point where two EIGRP autonomous systems are interconnected. Individual router interfaces should only be included within a single EIGRP autonomous system. Cisco does not recommend running multiple EIGRP autonomous systems on the same set of interfaces on the router. If multiple EIGRP autonomous systems are used with multiple points of mutual redistribution, it can cause discrepancies in the EIGRP topology table if correct filtering is not performed at the redistribution points. If possible, Cisco recommends you configure only one EIGRP autonomous system in any single autonomous system.

인식해야 하는가? **A. 옵션 C. 옵션 D. 옵션 A. 옵션 B**
Answer: A
Explanation: A business combination is accounted for as an acquisition regardless of the form of consideration given. Thus, assets acquired and liabilities assumed should be recorded at their fair values. The differences between fair values and carrying amounts will affect profit or loss when related expenses are incurred. The effect of recording the building at fair value in the consolidated balance sheet instead of its higher carrying amount on Company S's books will be to decrease future depreciation. If the building is to be used, fair value is its current replacement cost for similar capacity unless expected use indicates a lower value to the acquirer. If the building is to be sold, it should be reported at fair value minus cost to sell. The excess of the sum of the consideration transferred, any noncontrolling interest, and any previously held equity interest over the acquisition-date fair value of the net assets acquired will be recognized as goodwill. This amount will be tested for impairment but not amortized.
